## **Waterfowl – Duck Diet**

### **DIET**

Geese, Swans, Dabblers, Perching

Juvenile and Adult:

½ scratch, ½ feeder laying mash, sprinkle of vionate, lots fresh greens (excluding iceberg lettuce), mealworms for treats.

Ruddy, Scoter, Merganser, and other diving ducks

Juvenile and Adult:

Feeder fish, meal worms

All Ducklings/Goslings:

½ cup Quik grow Kracketts, ½ cup feeder laying mash, ¼ tsp. vionate mixed with water to make a watery gruel. Feed this for the first 2 weeks. Also, dice up greens into tiny pieces and float in their water to begin imprinting that “green” food is found in the water.

Good Captive Diet:

Mazuri Waterfowl Maintenance
